

# Crop Nutrition Club Potato (Denmark)

**Region: Central Jutland**

**Crops:** Wheat, starch potatoes, oats, barley, winter rye, ryegrass, OSR.

**Livestock:** Sheep, Cattle, Laying Hens

## **Nutrient Management Challenges:**

- Leaching of N and K on their coarse sandy soils.
- Reaching optimal levels of N, K and Mg to get highest yields of starch.
- Matching N level and PGR's for rye grass.
